## PRESCRIBED BURN CREW MEMBERS WANTED

- Do you like to work outdoors in beautiful weather?
- Do you enjoy hard physical labor?
- Are you sometimes available on short notice to work afternoons and evenings?
- Does working with FIRE sound like fun?

If the answer is yes, I may have a job for you. I run a small prescribed burn business - David Borneman, LLC - (RestoringNatureWithFire.com). We travel all around southern Michigan burning prairies, woodlands, and wetlands. I need 3-5 crew members who can carry drip torches full of fuel for lighting fires and backpacks full of water for putting them out. The work is strenuous and requires a high level of physical fitness; you must be able to carry 60-lb water packs on occasion. No previous burn experience required - I will teach you what you need to know. I just need people who are good at following directions, like to work hard, and don't mind getting dirty!

The work schedule is entirely weather-dependent, but will often be from late morning until after dark. I burn 7 days a week from March through May, but will welcome crew members who are only available certain days of the week, even if only 1-2 days. Interested parties should email a resume, and/or tell me something of your work history, and let me know which days of the week you would be available to work. Send it to [Dave@Restoring-Nature.com](mailto:Dave@Restoring-Nature.com).

Typically, we meet near Ann Arbor and all ride together in my truck to and from burn sites. With COVID, I'm requiring that all crew members in the truck be fully vaccinated and boosted. BUT, unvaccinated crew members may still join the crew if they're willing to provide their own transportation to and from burn sites.

It's fun work! You are helping to restore nature, and you get to see some **AMAZING** flames!!

Starting pay for new crew members: \$18.00/hour, including travel time.
